

Leading the **green**
transition
beyond the obvious

AGRI-E

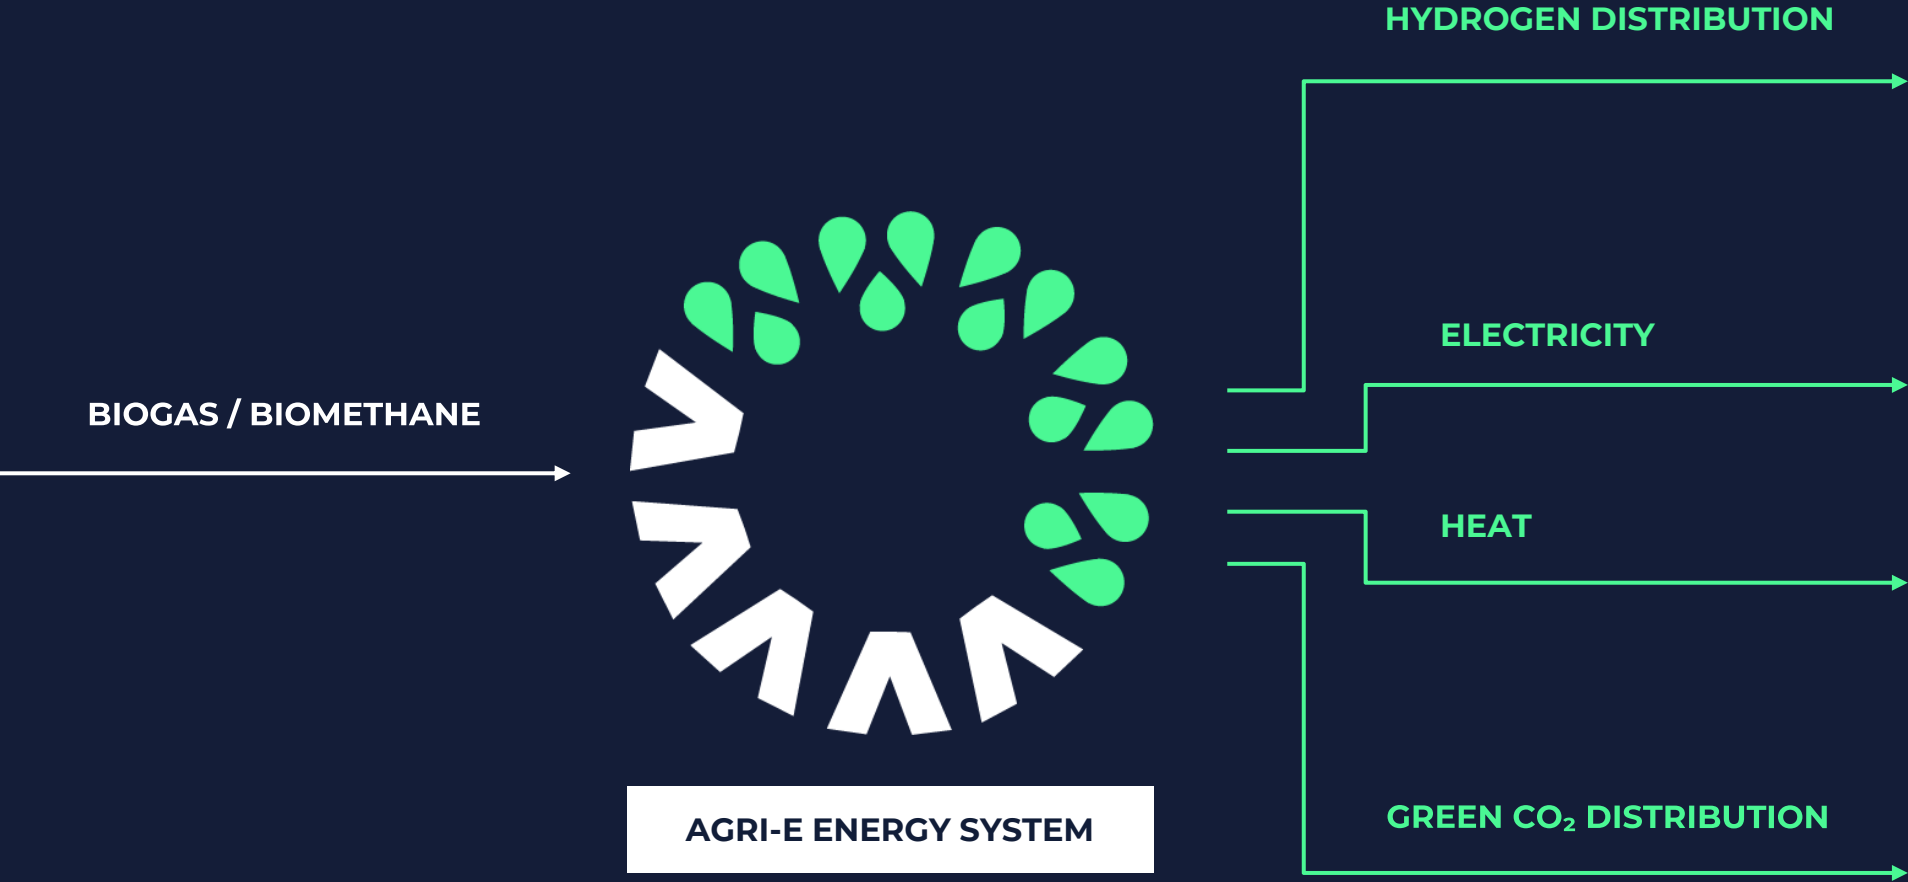

CHALLENGES

- Access to renewable energy
- Climate emission
- Resources utilization

Transition to a sustainable future

OUR SOLUTIONS

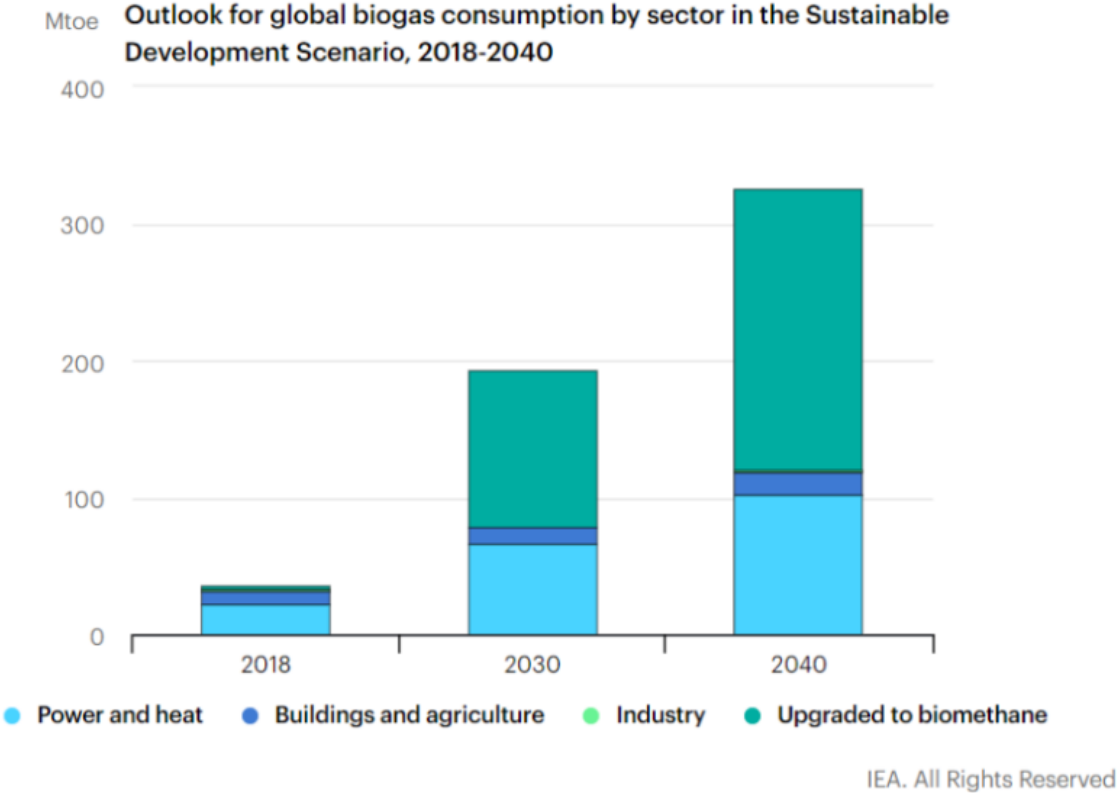

COMPLETED PILOT PROJECT

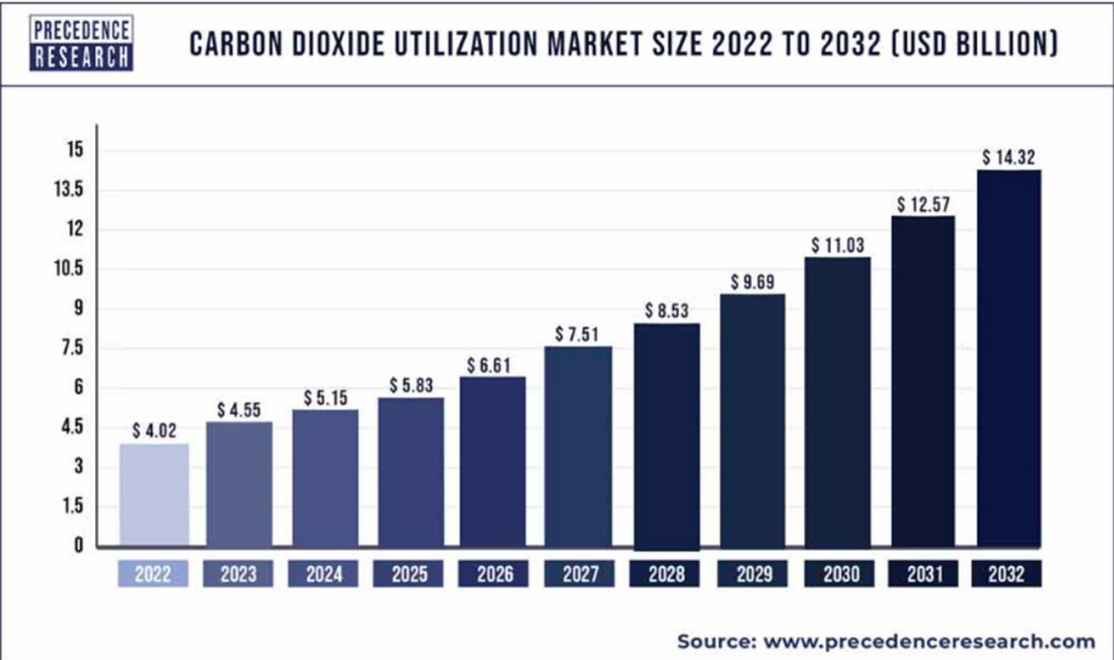

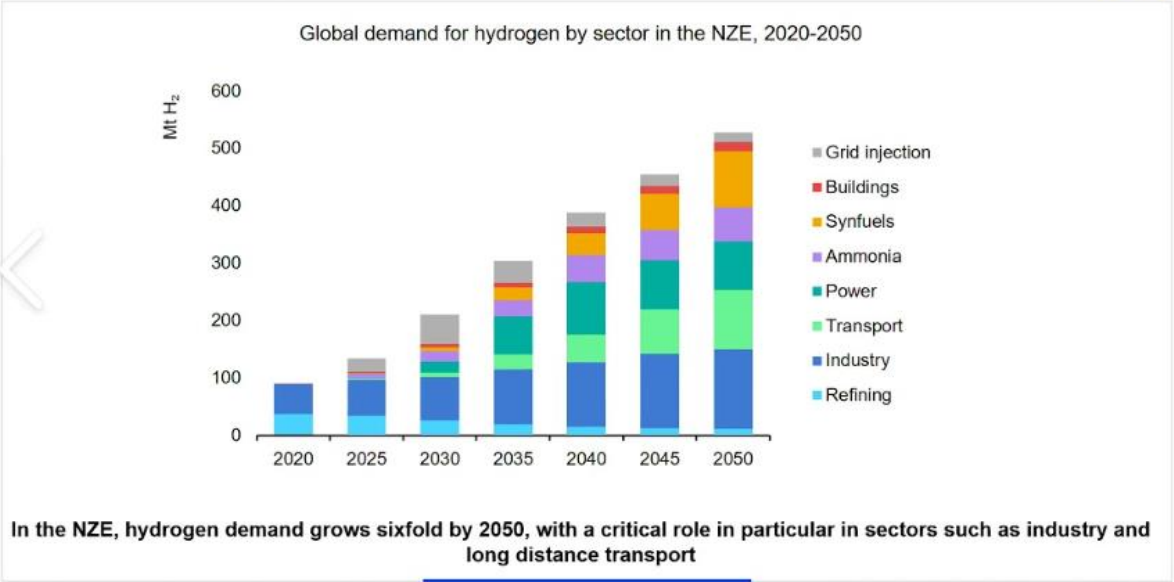

Unique, superior technology

- Scaled down industrial pilot plant
- More than 2 000 hours of successful operation
- Ready for commercial scaling

WE'RE IN A BOOMING MARKET

Hydrogen is an important contributor to a net-zero energy system

Unlocking value from Agri-e as a project developer and turnkey supplier

- Established in 2016 by a group of entrepreneurs
- Background from the oil & gas sector
- Build-Own-Operate (BOO) strategy for corporate and utility-scale off-takers
