

KE THOR

Powerful - Lightning fast - Mobile

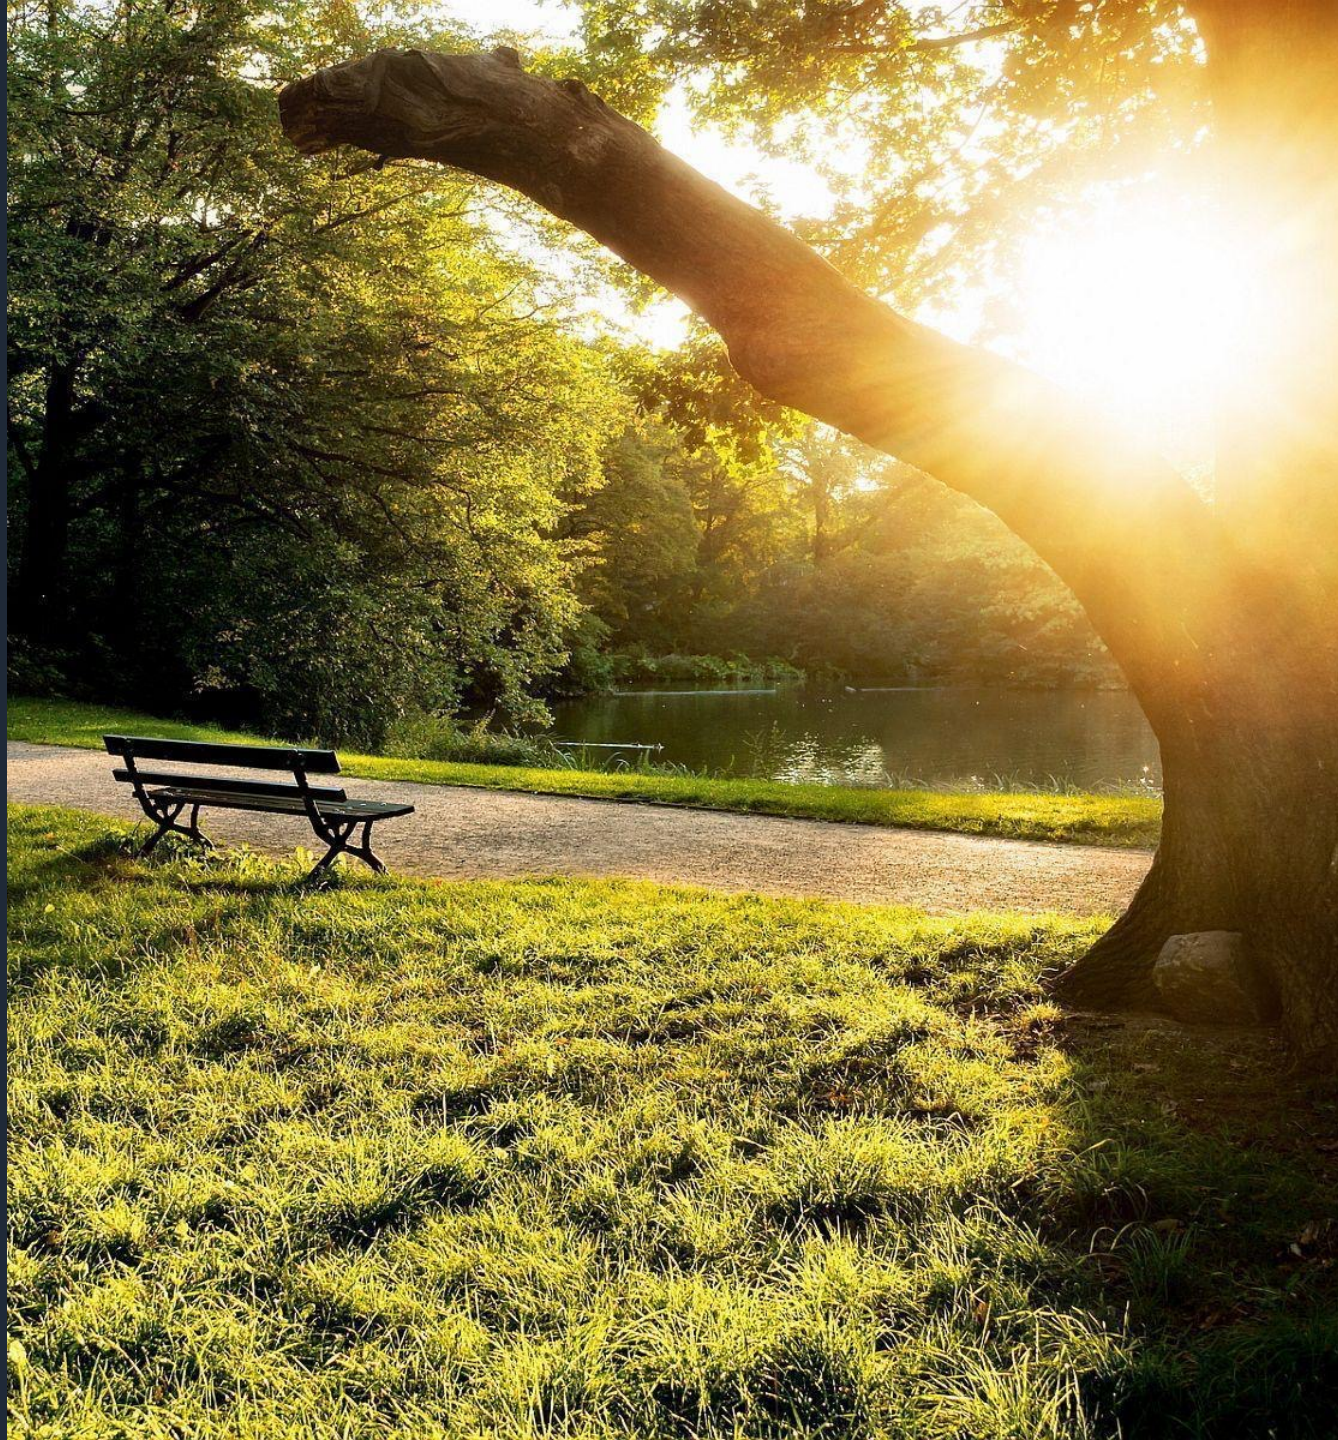

KVERNELAND
ENERGI

The New Terms:

Zero pollution on construction sites by 2030.

Challenges:

Powersupply - Efficiency - Downtime

KVERNELAND
ENERGI

Disaster

Charging batteries with a
diesel generator

Solution?

THE THOR

Have the best productive lunch

While getting batterie power for the rest of the day

And the future

The power of the team

Look to Norway

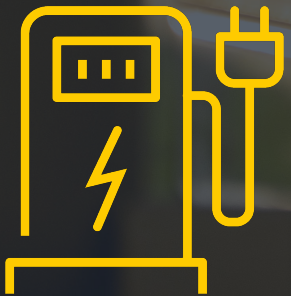

Thor's unique features?

Visit our stand to learn more about the technology

KE Thor

Mobile fast charger developed for excavators

Plug & Play

- Charging capacity
240 kW

Costumised Software

- Full controll of all data
- Remote support
- Sustainability reports

Island Mode

- Charge without grid
connection

Construction power

- Replace construction
